Notes and actions

(In Person Meeting) Introduced ourselves. Created github repo and combined code.
(Zoom Meeting) Removed errors from combined code.
(In Person Meeting) Divided up work and reviewed children functionality. Each of us worked on their own part and colloborated to fix any bugs in the code plus worked on creating the overview UML.
(In Person Meeting) We created the UML diagram, finshed up writing code. We will work on inspection report and start creating the presentation.
(Zoom Meeting) Added comments to tester file and working on finishing up the presentation
Practice for the presentation and final review of capstone project
